

Whether you're looking to direct-fix or fully suspend your plasterboard ceiling, the Rondo KEY-LOCK® Concealed Ceiling System is designed to produce high quality framing for a flush or featured finish in internal applications.

Available for non fire-rated and fire-rated applications, bulkhead, seismic and acoustic designs, it is strong enough to hold multiple layers of plasterboard.

FIRE-RATED AND ACOUSTIC DESIGN / CURVED CEILINGS SYSTEMS / SEISMIC DESIGN

BENEFITS

- Can be designed for increased wind actions
- Manufactured using BlueScope continuous hot-dipped galvanized steel providing surety for strength and reliability
- Primary and secondary profiles available in custom lengths or radiuses

SUITABLE FOR

- Flush plasterboard ceilings
- Direct-Fix or Fully Suspended internal applications
- Non-Fire Rated systems
- Fire Rated systems This to be installed strictly in accordance with the tested system
- Acoustic applications requiring multiple layers of plasterboard. Please refer to Rondo Design services when considering seismic solutions in conjunction with acoustic requirements
- Seismic applications Project specific seismic solutions can be prepared for the KEY-LOCK® System
- Vented, pressure sealed and non-pressure sealed ceiling applications

MATERIAL SAFETY DATA INFORMATION

MATERIALS

Products manufactured by Rondo Building Services are produced from coated steel coil material which is classified as a non–hazardous material.

PRODUCTION PROCESSES

A water–based soluble lubricant is used to assist with the roll forming process. These soluble lubricants are not considered hazardous when used as recommended by the manufacturer.

HANDLING AND STORAGE

Products are supplied in pack and sub–pack quantities and should be handled in accordance with the recommendations contained in AS 1470 – Health and Safety at Work Principles and Practice.

Where mechanical lifting or moving equipment is required, trained, and licensed operators are to be used.

Metal products should be stored in an environmentally friendly area away from moisture and airborne contaminants such as acid and salt sprays.

SAFETY

It is our recommendation that PPE should be worn when handling metal products (AS 2161 –Occupational Protective Gloves) and that they should be checked regularly for damage.

People with sensitive skin conditions should seek medical advice before prolonged handling of metal products: hands should be washed before eating and for personal hygiene.

Safety glasses (AS/NZS 1336) should be worn when cutting metal sections.

SITE TRAINING

It is the responsibility of the contractor to ensure their employees are trained in onsite WHS procedures as these can vary from site to site.

COMBUSTIBILITY

For more information on the steel used by Rondo visit www.steel.com.au or <u>click here.</u>

RODUCT DATA SHEET

ENVIRONMENTAL PRODUCT DECLARATION (EPD)

The Rondo EPD provides to a customer the Life Cycle Assessment (LCA) data for over 300 products and 53 product families.

source the LCA data by selecting the required part numbers that make up the system within one EPD.

The Rondo EPD was certified, and made available to Rondo customers in December 2020, **click here** to download.

RONDO WARRANTY

Rondo's quality products are backed by our comprehensive warranty.

With minimal exclusions, our warranty provides optimal peace of mind.

For more information on our warranty **click here**.
