## SPEEDPANEL TRACK COMPONENTS

---

Rondo 820 'C' Channel Track and 559 Angle components are manufactured from Z275 Galvabond material and are suitable for use with 78mm Speedpanel Systems. The popular components are currently being supplied to the Victorian Comprehensive Cancer Centre project.

The Rondo 820 Speedpanel 'C' Channel Track (pictured on front) is available in stock packs of 50 pieces and Rondo 559 Speedpanel Angle (pictured above) comes in stock packs of 100 pieces.

Rondo also has the flexibility to provide a quote for supply of any special sized 'C' Channel Track or Angle required for use with Speedpanel Systems.

For more information visit [www.rondo.com.au](http://www.rondo.com.au), or call 1300 36 7663 to speak with a Rondo Technical Sales Representative.
