### NOTES:

1. Stated wind pressures are Ultimate (W<sub>u</sub>), including all local pressure factors.
2. Serviceability checked to L / 600 under dead load only and L / 200 under dead plus Wind.
3. Service wind load taken as 0.68 times Ultimate (W<sub>u</sub>) unless noted otherwise.
4. Connections to be independently checked by a suitably qualified engineer, or refer to Rondo.
5. The tables are not suitable for cyclonic regions, which should be referred to a suitably qualified engineer or Rondo.
6. Multiple layer results are not to be used for design of fire rated ceiling systems.

## 309A: LIGHTWEIGHT AND COST EFFECTIVE

Complemented by the new Rondo 22mm Wall Track (Part number 143), the Rondo 309A is easily compatible with Rondo's standard range of Furring Channel fixing clips and connectors.

Manufactured using a distinctive dimpling technology to provide added strength, 309A has a unique "ARMOUR®" finish that improves screw alignment and retention, whilst also making it easier to handle and identify on site.

Designed and tested to meet current code requirements, Rondo 309A can be installed according to the span tables provided on the back page for your next ceiling design.

Available this December, Rondo ARMOUR® Furring Channel joins other components in the Rondo KEY-LOCK® Concealed Ceiling System range and is available in 3600mm, 4800mm & 6000mm lengths, and in stock packs of 120.

The new Rondo 143 Wall Track has been released in the standard length of 3000mm and in stock packs of 100 pieces.
